Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1-27, drawn to a toaster, classified in class 99, subclass 385.
 - II. Claims 28-57, drawn to a microwave oven, classified in class 219, subclass 685.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it does not require that the tray assembly for receiving and ejecting the bread and preventing the bread from slanting while toasting the bread as claimed in claim 1 and the structure of the tray assembly with a wing and other elements and a door as required in claim 17. The subcombination has separate utility such as a toasting device by itself or in combination with other oven devices such as a gas oven or a convection oven.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter and the search required for each Group is not required for other Groups and vice versa, restriction for examination purposes as indicated is proper.

Art Unit: 3742

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).
